CANADIAN NATIONAL

[Schoepp-Dewald]

On Sunday, Nov. 9, at St. Matthew's church (Missouri Synod) Miss Martha Dewald (daughter of Mr. and Mrs. P. Dewald, Mewassin) was married to Mr. Jac. Schoepp (son of Mr. and Mrs. J. Schoepp of Stony Plain). The ceremony was performed by Rev. E. Eberhardt, pastor. The ceremony was witnessed by a large number of the friends of the contracting parties.

The Inga Meeting Date

Several ratepayers of Inga municipality came to Stony on Friday last, to do business with Inga councillors, only to find that the councillors had met here the day before. The *Sun* printed the date of the meeting for Friday, Nov. 7th, on what it considered good authority, and regrets inconvenience was caused anyone thru this.

U. F. A. Caucus.

U. F. members in Alberta Legislature held a caucus at the Parliament buildings in Edmonton on Friday and Saturday, with Premier Brownlee presiding.

This was the usual U.F.A. member caucus held about this time of year for the purpose of a round table discussion of policies and conditions. Among the matters up for discussion were the Wheat Pool in view of the prevailing low price of grain; the general farming situation; Government measures of relief; and some of the urgent matters to come up at the Legislature's next session, which will probably be called for January next.

Stony's Annual Man Hunt.

To keep abreast of the times and not to let another town like Edmonton get all the advertising for burglaries and hold up incidents, a man hunt was staged in Stony Plain the other night.

So soon as a storekeeper spotted two strangers looking in his windows the hunt was on, and the chair-warmers felt the urge to do something in return for the warmth they had been absorbing, and so volunteered for service to the number of about ten.

When the posse had organized and elected a leader, they headed south on the main stem, and hadn't proceeded far when they noticed the invaders acting in what was thought to be a suspicious manner. The posse's forces deployed, with the intention of encircling the strangers; but when the drag-net had closed there was nothing in it.

Another attempt was made, but it was like chasing a will-o'-the-wisp. Unsuccessful sorties were made every fifteen minutes, up to 3 a.m., when the members dispersed to their homes and the local coffee house closed.

What Have You Learned About Life?

A world-wide organization of men recently conducted a contest, requesting letters on the subject: "What Have I Learned About Life?" Numerous replies were received, and the writer of this column feels that he cannot do better this week than pass on one of the prize-winning essays. It is brief, and to the point, and reads:

"I used to drive my father's car on the country roads. While bouncing along over the rough ruts on the right side, the left part of the road always appeared more inviting; but once on that side I inevitably found it just as rough or worse.

This is the first lesson I have learned about the roadway of life. The other side is deceiving. The boy longs to be a man, and the old man glorifies the golden days of his youth. The poor yearns to be rich, while a larger income constantly calls for more expense. But the successes and gains of life are not in the future or the past, nor in the other man's back yard. They lie within our own reach at the present time and in the present conditions. Life has lined us up for an even start.

The second thing I have learned about life is that God hasn't finished the job. We rejoice in the accomplishments of science, religion and social relationships, but yet in the crowded ways of life we find vile strife, unbrotherliness, political corruption and the curse of a maldistributed industrial order. Civilization is in its infancy, and its growth will depend on us of the present generation. There are still new worlds for men to conquer.

It doesn't take long for one to learn that there is no getting by in the long run of life. Being born into the world with this or that fortune or pedigree does not guarantee that one shall have a sturdy character and a personality that shines like the morning sun. Regardless of where a man starts in life those things of lasting value, education, religion, business power, a strong and virile physique and a happy home life are obtained only by long hours of patient and arduous toil and self-discipline which alone are the handbanners of a radiant and masterful personality. There are no sales and charge accounts in the market places of life. The price of the best is constant.

Finally I have learned that there is enough happiness in life to go around. No man is cut off from his heritage of happiness even though it be interspersed with hardships and sorrows. To be able to see the vision of life's task in spite of the cramped quarters of a menial job; to find outlet of self and character in stooping to help a brother while persecuted by others; to rejoice in the exaltation of personality while crushed in the wheels of industrialism; and to be happy in a good and thrilling quest with the fresh dawn of each immortal day—this is the major lesson of life.

Shipping Asbestos To Japan

About Eighty Per Cent. Used In Produced In Canada

"The market in Japan for asbestos in lump, powder and fibre, as well as in packing and other forms is increasing year by year owing to the expansion of industrial plants using this

material and to the great variety of uses to which asbestos products are being put in everyday life," according to James A. Langley, commercial secretary to the Canadian Legation at Tokyo, Japan, in an article in the October issue of the Commercial Intelligence Journal.

About 80 per cent. of the asbestos used in Japan comes directly from Canada, a small percentage from Russia, the balance through one or two English concerns interested in the African asbestos deposits. The demand for asbestos powder and fibre runs to about 12,000 tons.

Making Trial Shipment Of Western Cattle

Prominent Ranchers Send High Class Animals To Old Country
Jack Byars, Sr., livestock promoter, attached to the Dominion Department of Agriculture, has taken a trainload of range steers, two, three and four years-olds which were contributed by a number of prominent ranchers of Saskatchewan and Alberta, as a trial shipment of high-class cattle to the Old Country markets.

The shipment is being supervised by the Federal Department of Agriculture from loading to market. Mr. Byars sailed from Montreal to Manchester on October 30.

Veteran Government Worker

Walter Todd, Has Served in Civil Service For More Than Half a Century

Walter Todd, for more than half a century clerk of committees and private bills for the House of Commons, died at Ottawa recently in his 74th year. His illness had been of brief duration.

The 57 years Mr. Todd spent as a government worker made him, in point of continuous service, one of the oldest members of the civil service. He succeeded his father to the position of clerk of committees in 1874.

In addition to the coincidence that father and son gave many years to the same job in the service of their country, one other peculiar incident stood out similarly in both their lives. In 1848 when the Parliament buildings, then situated in Montreal, were fired by an angry mob during the agitation which followed introduction of the Rebellion Losses' Bill, Mr. Todd's father cut the portrait of Queen Victoria from its frame while the structure about him was in flames.

In 1916 when the Parliament buildings at Ottawa again went up in flames, Walter Todd cut the same portrait of her late majesty from its frame and once again the canvas was saved by a Todd.

Guard the Children From Autumn Colds

The Fall is the most severe season of the year for colds—one day is warm, the next cold and wet, and unless the mother is on her guard, the little ones are seized with colds that may hang on all winter. Baby's Own Tablets are mothers' best friend in preventing or banishing colds. They act as a gentle laxative, keeping the bowels and stomach free and sweet. An occasional dose of the Tablets will prevent colds, or if it does come on suddenly their prompt use will relieve the baby. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The W. L. Williams Medicine Co., Brockville, Ont.

Newspaper Convention

Provincial Meeting In R.C. Of Journalists On Daily and Weekly Publications

A provincial convention of the men and women who are engaged in the editorial departments of the daily and weekly press of British Columbia, the first of its kind in Canada, is planned for a late week-end in February, preliminary arrangements having been made at a meeting of the provincial executive committee of the B.C. Institute of Journalists, held in Vancouver.

The convention will coincide with the annual dinner of the Vancouver branch, which will act as host to the out of town members who are expected to assemble from all parts of the province.

To safeguard the child from damage that worms cause, use Miller's Worm Powders, the medicine par excellence for children. These powders will clear the system entirely of worms, will regulate and stimulate the organs injuriously affected by the worms, and will encourage healthful operation of the digestive processes. As a vermifuge it can be relied on for its effectiveness.

Uses Of Volcanic Dust

Volcanic dust is mainly used in the manufacture of cleansers, scouring powders, and abrasive soaps, but lately, outside Canada, there has been an increasing demand for its use as an admixture in cement and plasters. Volcanic dust beds up to thirty feet thick are being worked near Swift Current, Saskatchewan. There are other beds in British Columbia.

The finest diamonds come from the neighborhood of fresh-water rivers.

Chest Colds

Minard's Liniment is recommended in cases of bronchial irregularity. Rub it on the affected parts, or inhale it as necessarily dictates.

MINARD'S
"KING OF PAIN"
LINIMENT

ACID CONDITION

the common cause of pain and discomfort after eating --

GET RID of your dread of pain after eating. Eat without fear of "indigestion," sour stomach, disagreeable gas or headaches.

When your food ferments, "disagrees," lies like a lump in your stomach, it's a sign of too much acid. You need not resort to crude methods—take instead an anti-acid that will correct the condition. Phillips' Milk of Magnesia.

A spoonful of this pleasant-tasting, soothing fluid neutralizes many times its volume of acid. It restores the proper alkaline balance to an acid-soaked stomach and bowels—assists these organs to function as they should.

Phillips' Milk of Magnesia is what you need when a bad breath, coated tongue, headaches, nausea or biliousness indicates an over-acid condition. Take a spoonful today and for several days and see how it sweetens the system. You won't be nearly so liable to colds or sickness. All drug-stores—in 50c bottles.

Genuine Milk of Magnesia is always a liquid—never a tablet. Look for the name Phillips on wrapper and bottle.

PHILLIPS' MILK OF MAGNESIA

Dairy Production Increases

Increasing Demand For Dairy Stock In Prairie Provinces

"Statistics of dairy production at the present time indicate that there is an appreciable increase in milk and cream production all over Canada at the present time," observes Dr. J. A. Riddick, Dairy Commissioner of the Dominion Department of Agriculture. With respect to butter production Ontario and Alberta show a 15 per cent. increase for the first six months of the production year. Cheese production, of which 97 per cent. is centered in Ontario and Quebec, was 30,000 boxes behind last year as at October 31. One of the interesting features in the dairy industry at the present time is the increasing demand for dairy stock in the Prairie Provinces.

Postage Stamp Changes

New Color To Be Adopted In Printing New Issue

Fall styles in postage stamps will show a radical change in color scheme. Within a month, or sooner, if present stocks are exhausted, a new issue of stamps up to the eight cent denomination will be released by Canada's Post Office Department. Basic colors will be changed in conformity with regulations of the Universal Postal Union, of which Canada is a member.

The one cent stamp will change its "dress" from orange to green; the two cent stamp will be red in place of green as at present; the mauve five cent stamp will make way for one of blue and the eight cent postal carrier will give up its blue color for a modish orange.

Felt Tired Out All Day Could Not Sleep at Night

Mrs. Aldamond Lalonde, 2481 St. James St., Montreal, Que., writes:—"After a spell of the grippe I was left very nervous, and felt drowsy and tired out all day, and could not sleep at night. I was also troubled with my heart and did not feel at all like working. I was told about Milburn's Heart and Nerve Pills and after taking four boxes I was completely relieved of my trouble, and can recommend your Pills to everyone."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Marketing Grain Through Livestock Production Will Solve Problem Of Western Farmer

Whether to sell grains through livestock or for cash has been a question, much discussed in the past. The question of the effect of concentration of production on the sale of grains for cash has now been pretty well settled. What about selling through livestock? Particularly attractive features about selling grains for cash have been the relatively low amount of labor and skill involved and the rapidity with which the cash could be secured. But this latter advantage has disappeared and now it is a question of whether we shall do the work and learn the skill.

Attaining skill costs money, but it should not be charged into costs of producing, says hogs. It is an investment which will always return big interest. It is largely a matter of will and intelligence.

Many farmers can feed considerable numbers of livestock without increasing the amount of money ac-

counting production comes in. Such results are the reward of a steady policy persistently carried out over the years. The farmer who has steadily added to his equipment and skill is this year not worrying about the low price of grains. Rather he is benefiting by it. Even in the years of the highest priced grains he still has averaged a fair margin over grain prices. Sometimes it is necessary to feed hogs for returns that do not exceed the cash values of feed grains, but one thing that should sink into the minds of every person interested in the livestock industry is the utter foolishness of reducing breeding stock because of a temporary condition.

It will be understood that while the accompanying tables give the feeding value per bushel of wheat, oats, and barley separately it is, of course, advisable to feed them mixed one with the other. A good ration for growing pigs would be equal weights of wheat,

Grain Values When Fed to Hogs

The table below shows the value of a bushel of wheat, barley, and oats when fed to hogs at the rates of 500 lb., 450 lb., 400 lb., and 375 lb., to produce 100 lb. of hog when the selling price of hogs ranges from \$10 to \$6 per 100 lb. For instance, in the first line of the table it will be seen that when hogs are selling at \$10 per 100 lb., wheat fed in the ratio of 5 lb. to make a pound of hog would have a resultant value to the farmer of \$1.20 a bushel, barley a value of 96 cents, and oats a value of 68 cents. The tables form a sort of convenient table or ready reckoner of values and are to be read in that manner.

When 500 lb. of Feed are used to produce 100 lb. of Hog.				
Hogs	Wheat	Barley	Oats	
at \$10	1.20	.96	.68	
9	1.08	.86	.61	
8	.96	.75	.54	
7	.84	.67	.47	
6	.72	.57	.41	

When 450 lb. of Feed are used to produce 100 lb. of hog.				
Hogs	Wheat	Barley	Oats	
at \$10	1.50	1.20	.85	
9	1.35	1.08	.75	
8	1.20	.96	.65	
7	1.05	.84	.55	
6	.90	.72	.45	

When 400 lb. of Feed are used to produce 100 lb. of hog.				
Hogs	Wheat	Barley	Oats	
at \$10	1.80	1.44	1.10	
9	1.62	1.29	.96	
8	1.44	1.15		
7	1.26	1.02		
6	1.10	.60		

When 375 lb. of Feed are used to produce 100 lb. of hog.				
Hogs	Wheat	Barley	Oats	
at \$10	2.10	1.68	1.25	
9	1.89	1.51	1.10	
8	1.68	1.35	.96	
7	1.47	1.18		
6	1.26	.60		

tually paid out for labor. The others must choose whether they will utilize a part of their labor in making the bushels of grain that they raise produce a better average income than they can get for them when cashed in as grain. Much of the life time of farmers, especially in winter, can with proper management, be well utilized in feeding livestock.

In the accompanying tables is given the value of a bushel of grain when fed to hogs. A range of prices for hogs is given and a range of quantities fed to produce a hundred pounds of pork. Two things stand out in these tables. The one is that at a price as low as \$6.00 per 100 lb. for hogs, which is lower than prices have been for many years, barley, oats and the poorer grades of Western wheat will still yield very good values indeed per bushel. The other outstanding feature is that skill and management can largely increase the price per bushel received for grain when it is sold through hogs.

Under the worst conditions the feed cost of hogs should not exceed 500 lb. to each 100 lb. of hog produced. Under reasonably good management the quantity should not exceed 450 lb. Where, as in the East, milk supplements are available, 100 pounds of hog are being produced by farmers with the equal of feeding the milk of 400 lb. of grain, while some men with very good breeding stock and skilful feeding are using even less. This is where one (but only one) of the big features of cost of

oats, and barley, and, for finishing, a bushel each of the same grains. Any one of the grains fed alone would not have its maximum value. Furthermore, the tables are not intended to be absolute, but are indicative of the values that may be obtained from grain when fed to hogs. In view of the price level to which grain has been reduced they are emphatically suggestive of the wisdom of a policy that includes in its programme the steady, persistent maintenance of a considerable production of livestock on every grain farm.

Dry Wood
Dry wood will neither stain nor rot, but if it again picks up moisture it is not immune from disease.

(By Annette)

907

SCHOOL GIRL SMARTNESS EXPRESSED IN NEW CREPE WOOLLEN WITH BECOMING FLARE

It's one of the most effective interpretations of the season in Pafou's dark green crepe woolen in a shadow check pattern.

A narrow belt with green enamel buckle places emphasis on the natural waistline.

The scalloped neckline is smart, agreeing with the scalloped line of the shoulder yoke. The skirt is circular with just enough fullness to make it gracefully comfortable for school days.

Style No. 907 is designed for the miss of 8, 10, 12 and 14 years.

Brown and white tweed of light-weight texture is very fashionable in a tiny checked pattern.

Wool challis prints, wool jersey, rayon novelties, covert cloth, linen, cotton broadcloth prints and tweed like cottons are very smart for classroom and sturdy as well.

Size 8 requires 2 1/2 yards 39-inch. Send 25 cents (in stamps or coin) to Fashion Bureau. Write carefully and plainly your full name and address, the number of the pattern and the size you want.

CANADIAN HOTELS ASSOCIATION

Provincial directors and officials of the Canadian Hotels Association photographed at the Royal Alexandra Hotel following an annual meeting at which representatives from all parts of the Dominion were in attendance. From left to right they are: H. C. Brown, Charlottetown; C. A. Tanner, managing director and secretary-treasurer, West Champ, Regina, president of the Saskatchewan Association; Mayor Ralph Webb, of Winnipeg, who founded the Canadian Hotels Association; George Skinner, Winnipeg; Manitoba director, E. B. Swenson, New Brunswick director, and A. Manley, Vancouver, British Columbia director. Inset, is E. A. Neale, manager of the Royal York Hotel, Toronto, who was appointed president of the association for the coming season.

Fifth Biennial Conference Of British Empire Service League To Be Held In Canada In 1931

South African Wheat Pool

Formed With The Object Of Organizing The Wheat Industry.

A wheat pool for South Africa has been established with headquarters in Capetown, according to advice received by the Department of Trade and Commerce, Ottawa. The new wheat pool was organized as a result of a meeting in Pretoria recently of representatives of the Transvaal Free State, Eastern Province and Western Province.

The organization will be registered under the Co-Operative act, and is the culmination of deliberations of a committee appointed at the farmers' conference in January, with the object of organizing the wheat industry. The object of the scheme is to stabilize prices so that ultimately South Africa will produce sufficient wheat to meet its own demands. Millions of the country are reported to be in unanimous agreement with the project. The price paid for wheat will be according to grade, calculated more or less on value of Australian wheat, and prices will be established towards December in accordance with ruling world prices.

It is considered, according to the report received, that there will be no danger that the stabilization of the price of wheat will affect the price of bread as it requires at least eight shillings a bag for wheat before the price of bread will be increased and this is not considered likely to occur.

B.C. Apples Win Cup

Finest All-Round Exhibit At Imperial Fruit Show

High honors in the Imperial Fruit Show in London, England, have been won by British Columbia apples exhibited by the Associated Growers of the Okanagan Valley in competition with fruit from all over Canada, according to cable advices received by the B.C. Department of Agriculture.

The British Columbia fruit has been awarded the cup presented by the agent-general of all Canadian provinces in London, England, for the finest all-round exhibit. This trophy was won by Nova Scotia last year. The award is based on the total marks received by all classes of fruit shown by any exhibitor.

Manitoba University

The University of Manitoba, at present situated in the heart of Winnipeg, is to move to the outskirts of the city on the site of the Manitoba Agricultural College, five miles south of Winnipeg. Work has begun on the erection of a new arts' building to cost over \$416,000. The Agricultural College buildings are an imposing pile, representing an expenditure of \$400,000.

Representatives of all the returned soldier organizations of the Empire will meet in London, England, August, when the fifth biennial conference of the British Empire Service League will be held. It was announced at Ottawa, by Lieut.-Col. L. R. LaFleche, Dominion president of the Canadian Legion.

Led by Earl Jellicoe, admiral of the fleet and presiding officer of the league, delegates will come from the British Isles, South Africa, Australia, New Zealand, and from every corner of the far-flung Empire.

In making the announcement, Col. LaFleche said the only definite plan was that the meetings would be held at such a time and in such cities as to permit the whole delegation taking part in the Warrior Day celebration of the Canadian National Exhibition at Toronto.

When the last biennial conference of the British Empire Service League was held in London, England, in 1929, Canada sought the next gathering. There was competition for this honor from other Dominions and a decision was withheld. Col. LaFleche has now received a cablegram announcing Canada's invitation had been accepted. Earl Jellicoe presided at the meeting in London, England, which made the decision.

At the London conference 32 countries in the Empire were represented and it is expected there will be at least that number that will send delegates to next year's gathering. The British Empire Service League is an organization of returned veterans, branches of which are in every part of the Empire. The Canadian branch goes under the name of the Canadian Legion. The conference will be the largest gathering of returned soldiers ever held in Canada.

Definite arrangements for the event will not be announced for some time, Col. LaFleche said. More or less tentative plans were made when the invitation was extended in 1929, but they now will have to be changed in some respects because of intervening events.

How Time Is Spent

Frenchman Has Been Investigating and Gives Some Interesting Figures

A Frenchman with a liking for curious figures has been counting up the time that a man ordinarily devotes to common occupations of life. He finds that a man of seventy has usually spent about nineteen years working, twenty-three years in bed, nine years amusing himself or being amused, one year in church, and two years shaving himself. This last portion of time he seems to consider as one of the great wastes of life. But trying to imagine what we should look like if we shaved our heads we are not inclined to agree with him. Even if we did all save some time from shaving there isn't any real guarantee that we would put that time to any better use.

New Air Mail Service

Announcement was made by the postmaster-general's department of the inauguration of a regular air mail service between Peace River and North Vermilion, Alberta. The route will be via Carcajou and Fort Vermilion. No definite date for the first flight was made, but it will take place early in December.

"Madam, this sovereign is bad."
"Bad? Impossible!"
They? But madame, I told you you would not get rid of bad money at this shop."

WORLD HAPPENINGS BRIEFLY TOLD

Sir James M. Barrie has been installed as chancellor of Edinburgh University, his alma mater, in succession to the late Lord Balfour.

Dr. Frank B. Jewett, president of the Bell Telephone Laboratories says plans are being made to lay telephone cable under the Atlantic from Newfoundland to Ireland.

The French Government has decided to erect a stone memorial to the victims of the British airship R-101 on the field where the dirigible met disaster.

Though lower in value, Canada's catch of sea fish and shell fish for the first nine months of this year was larger in volume than for the same period of 1929.

The Nobel prize in medicine for 1930 was awarded to Dr. Karl Landsteiner, of New York, connected with the Rockefeller Institute of Medical Research.

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a belching, from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, likewise relieved.

Take Carter's Little Liver Pills after meals and neutralize the acid. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach, liver and bowels will be cleansed of poison, painful and dangerous indigestion disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkg. of Carter's Little Liver Pills.

Offer \$500 For a Slogan

Competition To Be Held In Connection With World's Grain Show At Regina

Official notification has been received from the Italian Government by the management of the World's Grain Exhibition and Conference to be held at Regina, July 25 to August 6, 1932, that Italy will be represented at the event. The acceptance of Italy makes the ninth country to accept the invitation to be represented at the World's Grain Exhibition and Conference. The other eight countries are: — New Zealand, Belgium, Netherlands, Czechoslovakia, Peru, Yugo-Slavia, Poland and Guatemala.

Preparations for the Exhibition and Conference at which over \$200,000 will be awarded in cash prizes are proceeding apace. The management is offering a prize of \$500 for the best slogan, the conditions governing the award of this prize being outlined as follows:

The slogan submitted shall not be more than ten words in length. There is no entry fee and the contest is open to the world. Not more than three suggestions are to be submitted by any one person. These must be written or typed plainly on one side of the paper containing the contestant's name and address and must reach the office on or before January 31, 1931. Address Slogan Contest, World's Grain Exhibition and Conference, Imperial Bank Chambers, Regina, Canada.

Let these 6 vital Salts rid you of PIMPLES

Would you like quickly to free yourself of those hideous pimples—those unsightly blackheads—and have that smooth and soft skin perfection you've always envied?

Do you want to have eyes as dazzling and bright as water dancing in a summer's sun?

Would you like to enjoy glorious health with plenty of energy and possess a keen mind? If the answer to these questions is "yes," then take a teaspoonful of Kruschen Salts in a glass of hot water every morning before breakfast!

Kruschen is a combination of the six vital salts which your nerves, glands and body organs ought daily to receive from food if the are to function correctly and which are impossible to obtain in these days of modern cooking. Kruschen swiftly cleans your blood of those harmful acids which cause your skin to erupt—you'll possess a skin like velvet, and a health perfection you didn't think possible!

Adds Thrill To Sport

Ski Runner Can Fly With New German Invention

Some of the thrills of flying are added to the winter sport of skiing with a pair of wings worn by the ski runner. The wing made of aluminum by a German inventor, are nineteen feet from tip to tip and enable the wearer to take short flights in the air after gaining sufficient momentum on the skis. They are so constructed that the ski rider is virtually seated in the centre of them when he leaves the ground. They are movable from a horizontal position and easily controlled, enabling the rider to change direction of flight.

Persian Balm. Cool and refreshing; soothing and protective. The perfect aid to beauty. Unrivalled in its softening and beautifying effect on the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth, soft and flawless. Use it for the hands and face. Always results in the highest expression of beauty.

Telephone Link With Australia

Regular Commercial Telephone Service Is Inaugurated

The American Telephone and Telegraph Company has announced it will inaugurate regular commercial telephone service between North America and Australia at once.

The new circuit, the longest ever established for regular commercial telephony, consists principally of two radio links, one across the Atlantic and the other between England and Australia. With the wire lines involved, the circuit between New York and Sydney is more than 14,000 miles long.

Ten persons were killed every day on French roads last year.

Banish pain with Minard's Liniment.

Canada Has Valuable Fur Farming Industry

Over Sixteen Million Dollars Invested In Fur Bearing Animals

Fur farming in Canada is now established as a leading industry. The latest available figures show that the industry today represents a capital value of \$22,880,617, of which \$16,401,453 is invested in fur-bearing animals.

Ten years ago the total value of fur-bearing animals on fur farms in Canada was placed at \$4,723,105. The industry today represents a capital investment of practically four times as much as in 1920. The silver fox heads the investment list with a capital investment of \$14,922,378—an increase of \$10,400,000 over 1920. The next from the standpoint of investment value is the muskrat, which now represents an investment of about \$328,928 the mink comes next. This is an increase of 50 per cent. over the preceding year and of \$324,153 over 1920. The otter, coyote, silver blue fox and beaver are other newcomers to the fur industry.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation and prouid flesh.

Irate Parent: Can't you think of anything but dancing? Aren't you ambitious? Don't you want to leave footprints on the sands of time?

Son: Frankly, Sir, I'd rather leave Rolls-Royce ruts!

Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound has surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

SUNDAY SCHOOL LESSON NOVEMBER 16

THE BELIEVING CENTURION—A GENTLE WHOSE FAITH JESUS COMMENDED

Golden Text: "And they shall come from the east and west, and from the north and south, and shall sit down in the kingdom of God."—Luke 13:29. Lesson: Matthew 8:5-13. Devotional Reading: Isaiah 60:1-9.

Explanations and Comments

The Centurion's Faith, verses 5-7.—One day, as Jesus entered Capernaum, a centurion approached Him. A centurion was an officer in charge of a century, a company of from fifty to one hundred men, the hundredth part of a legion. This centurion was a Gentile, possibly a proselyte, who had built a synagogue for the Jews at Capernaum (Luke 7:5). He came to Jesus and told Him that his servant, who was dear to him, lay at home sick of the palsy, grievously tormented. "Some diseases then classed as paralysis produce violent spasms," we are told. "It would have been in accord with the general manners of his day—4 days, which the servant was a slave without civil rights, liable to be tortured in a court of law, and to be slain at the caprice of a brutal master—if the centurion had scorned the inmates of his own household; on the contrary, his servant was dear to him, and he trusted him with the tenderness he would show to his son. Perhaps there is no sorer or severer test of the meanness or magnanimity of a man's nature than the simple question, 'How does he treat his inferiors?'"

The Centurion's Faith, verses 8-10.—The centurion declared himself unworthy to receive so great a Guest under his roof. "Only say the word, and my servant shall be healed," he said. Then he illustrated the power of a word from Jesus by his own experience: "For I also am a man under authority, having under myself soldiers; and I say to this one 'Go,' and he goeth, and to another 'Come,' and he cometh; and to my servant, 'Do this,' and he doeth it." If he, a man under authority to others, could say to his soldiers, "Go," and at once they obey, how much more might Jesus, under authority to God, say to the disease of the servant, "Go," and it would be gone! "Instantly, as it would seem, so large and true a conception of the world all held together in one sublime system of authority and obedience, running up to the highest, running down to the least of its activities filled the soul of Jesus with delight" (Phillips Brooks). And as he marvelled at the centurion's belief that he need not stand before Jesus said to those with Him, "Verily I say unto you, I have not found so great faith, no, not in Israel!"

The Centurion's Reward, verse 13.—Turning to the centurion, Jesus then said, "Go to thy way; as thou hast believed, so be it unto thee." Thy blessing shall be as great as thy faith. And the servant was healed in that hour.

Asthma Victim. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. From such a condition Dr. J. D. Kellogg's Asthma Remedy has brought many to completely restored health and happiness. It is known and praised in every section of this broad land.

Blood in the average human body travels five times the nautical distance between New York and Manila in one year.

Paper Plant Keeps Busy

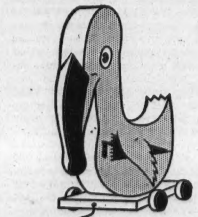

The Westminster Paper Company at New Westminster is operating its plant 24 hours a day with a staff of 100 men in order to keep up with its orders. The plant, in addition to a large domestic trade, is producing paper products for Australia, New Zealand, China, Japan, West Indies, South America and South Africa.

An Oil That Is Prized Everywhere.

Dr. Thomas' Electric Oil was put upon the market without any flourish over fifty years ago. It was put up to meet the wants of a small section, but as soon as its merits became known it had a whole continent for a field, and it is now known and prized throughout this continent. There is nothing equal to it.

Cloned Game Preserve

The Thelon game sanctuary east of the Great Slave Lake, which contains the last known herds of musk-oxen on the Canadian mainland, is closed to all hunters, both natives and white men.

for ANY CHILD

WE can never be sure just what makes a child restless, but a remedy can always be found in Good old Castoria! There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as your child has a fretful spell, is fidgety, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of cold. Sometimes constipation. Or diarrhea—a condition that should always be checked without delay. Just keep Castoria handy and give it promptly. Relief will follow very promptly; if it doesn't, you should call a physician.

Fletcher's
CASTORIA

DOMINION-WIDE AIR SERVICE TO BE INAUGURATED

Winnipeg, Man.—Negotiations are nearing completion for the formation of the Dominion-wide air service, in which the Canadian National and Canadian Pacific Railways will participate, according to word received here recently. Preliminary plans for a small-Canada service were discussed some months ago, and since that time negotiations, now nearing completion, have been under way with the railways and eastern aery companies.

James A. Richardson, of Winnipeg, financier, and president of the Western Canada Airways, who will be the majority stockholder in the organization, to be known as the Aviation Corporation of Canada, is at present in the east completing negotiations for the new air development.

The Aviation Corporation of Canada will have under its control the Western Canada Airways, the Canadian Transcontinental Airways, the Canadian Airways and other companies, providing an air service from coast to coast. The railways will both be financially interested in the organization, which, it is stated, has the sanction of the Federal Government, although it will have no financial stake in the concern.

Development of train and air schedules to provide speedy transcontinental service across the Dominion is forecast.

There will be no public financing of the corporation in the immediate future, it is understood.

Franco-Italian Naval Difference

United States Ambassador Is Optimistic After Conference With Italy

Rome, Italy.—Hugh S. Gibson, United States ambassador to Belgium, has returned to Geneva apparently optimistic after a series of conferences with Italian government heads looking toward a settlement of the Franco-Italian naval difference. He did not talk for publication about his conversations with Premier Mussolini and Foreign Minister Grandi, but he left behind an impression that negotiations between France and Italy will be undertaken at the League of Nations preparatory disarmament commission sessions with more likelihood of success than would have been the case before his visit to Rome.

Not Exempt From Taxation

C.N.R. Pays Over Eighteen Million In Three Years

Toronto, Ont.—Replying to the statement that the Canadian National Railway had on the public exchequer and was exempt from taxation, Sir Henry Thornton, chairman and president of the system, told members of the Toronto Board of Trade Club, that from 1926 to 1929 the railway had paid in federal, provincial and municipal taxes \$18,700,000. This amount, he said, was only \$3,000,000 less than paid out by the Canadian Pacific Railway.

The \$3,000,000 less can be explained by the fact that Maritime railways are under a different arrangement.

Pays Tribute To Grenfell

London, England.—The Prince of Wales paid a tribute to the work of Sir Wilfred Grenfell in a letter which was read by the Lord Mayor of London recently at a meeting of the Grenfell Association. The letter read: "There is no doubt that Sir Wilfred is carrying on splendid work in a territory rapidly becoming an economic unit of great potentialities to Newfoundland and the Empire."

Section Foreman Awarded Prize

Winnipeg, Man.—E. Swanson, section foreman in charge of one of the British Columbia boundary subdivisions at Elkton, B.C., has been awarded the prize donated by W. M. Neal, Winnipeg, general manager western lines Canadian Pacific Railway, for the best maintained section of track on the company's western lines during 1930.

W. N. U. 1863

Labor Secures Majority

Premier Ramsay MacDonald Wins Through First Division
London, England.—A majority of only 51 votes carried the Labor Government of Premier Ramsay MacDonald safely through the first important division of the current parliamentary session.

This was regarded a crucial test, for the balloting was only on a motion by the Conservative party to amend the Speech in reply to the Address from the Throne. The amendment was defeated by 281 votes to 230.

The Speech from the Throne has been under bitter attack for two days, the Conservatives regretting the failure of the Laborites to propose any adequate measures to deal with the crisis in the industrial, agricultural and commercial fields or to check the growth of unemployment.

Liberals decided to abstain from voting on the amendment. As a matter of fact, five Liberals, including Sir John Simon, voted against the government, but they were almost counter-balanced by four members of the same party who stood by the administration.

The left wing Laborites stood by Premier MacDonald.

Earnings Forty Millions Less

C.N.R. Has Deficit This Year Of Ten Million

Toronto, Ont.—Gross earnings of the Canadian National Railways system will be \$40,000,000 less this year than in 1929, but drastic economies in all departments of operation and in capital expenditure will offset this to the extent of about \$20,000,000, it was revealed here by Sir Henry Thornton, president of the system.

The large savings effected, he indicated, were largely achieved by putting off construction work and other new operations not immediately essential.

While no improvement or indication of immediate improvement in C.N.R. earnings was visible, Sir Henry was encouraged at what he thought was "better feeling" by most people and business men. The extreme and unwarranted pessimism induced by the depression, he thought, was passing rapidly, which was a good sign.

For Improved Motor Cars

Increase In Speed, Comfort, Safety and Cheapness Is Predicted

London, England.—Motor cars of the future will have fewer parts—hundreds of fewer parts—while taxicabs and buses may have their engines at the rear, according to a prediction made here recently by Sir Herbert Austin, prominent manufacturer, while addressing the Institution of Automobile Engineers. He added that all transport would increase in speed, comfort, safety and cheapness.

"Why we put up with the present archaic type of vehicle in London streets," Sir Herbert said, "is difficult to understand." The weight of road vehicles could be reduced with advantage, Sir Herbert declared, and a design was wanted for a 15 horse power closed car to weigh not more than 14 hundred weight.

Sheep Causes Death

Southsea, England.—Major David Thomson, 68, only brother of Lord Thomson, the air minister who lost his life in the R-101 disaster, died November 2. Physicians attributed his death to shock as a result of the tragedy.

Wheat Expert

DR. W. W. SWANSON

Professor of Economics, University of Saskatchewan, Saskatoon, who is at present in London with the Canadian delegation attending the Imperial Economic Conference. As outstanding authority on wheat, Professor Swanson is pursuing the difficult problems involved in the marketing of Canada's crops, concerning which so many despatches have been cabled to Canadian newspapers.

Brazil Establishes Provisional Government

Reforms and Democratic Elections Promised By Brazilians

Rio De Janeiro.—The Brazilian Government, of which Dr. Getúlio Vargas has become the head as the victor in a brief revolution, plans to step out as soon as it has effected reforms and democratic elections will then be conducted.

This was the assurance of Dr. Osvaldo Aranha, associate of Vargas and just named Minister of the Interior and Justice in the temporary government, who told the Associated Press that the new administration will represent the will of the Brazilian people.

"We have established a provisional government similar to that when the republic was proclaimed in 1889," he continued. "We shall shape our programme with the idea of making a real representative government and bringing honest administration into all departments."

Investigate Indian Conditions

Minister Of The Interior To Study Situation In The West

Ottawa, Ont.—In order to examine at first hand conditions on Indian reserves in the prairie provinces, Hon. T. G. Murphy, Minister of Interior and Indian Affairs, will journey to the west end of this week. While the minister's plans have not been completed, visits are contemplated to a number of reserves in the neighborhood of Regina, Sask., and Calgary, Alberta.

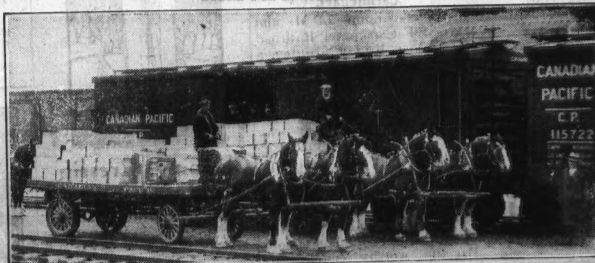

According to officials of the department, reports from Indian agents throughout the country indicate the plight of Indians is serious.

With winter coming on, every effort is being made to find ways to relieve the distress which is considered inevitable.

May Visit French Capital

London, England.—Premier R. B. Bennett, of Canada, will probably visit Paris, after the Imperial Conference has concluded, to discuss trade matters with the French government.

BOUND FOR EASTERN TRADE

Two trucks of shortbread and more coming up to complete the carload which left Winnipeg for Toronto's Christmas trade. It required 645 cases, 12,900 toothsome cakes, to fill the car with the western manufactured product bound for eastern trade—a special order completed this month.

Freemen Of City Of London

Prime Ministers Of Canada, Australia and New Zealand Are Honored

London, England.—In the old Guildhall, with its five centuries of stirring history, the Prime Ministers of Canada, Australia and New Zealand became freemen of the City of London. Premiers R. B. Bennett, J. H. Scullin, and G. W. Forbes, were declared in the ancient formula to be "men of good name and fame."

"They do not desire the freedom of the city whereby they will defraud the King or this city of any of its rights, customs and privileges," so ran the declaration of the compurgators, "they will pay their seat, bear their lot, and so they all say."

Sir Adrian Pollock, city chamberlain, introduced the new freemen. He said Premier R. B. Bennett "has not belied his reputation for plain speaking and anxiety to get things done, which admirable attributes are the more conspicuous on account of his well-known hereditary and passionate loyalty to the empire."

Premier Bennett declared he felt the honor was conferred not upon himself personally, but as an honor to the Dominion of Canada. He said he would be a Canadian, when I return, of the high regard you hold for them in this old city and of the deep concern ever manifested in their progress and prosperity," Premier Bennett said.

Premier Bennett referred to the Imperial Conference. "Of this great conference in which we are now engaged," he continued, "I can only say that every delegate, whether from the home or the overseas dominions is actuated by an earnest desire to promote the well-being and prosperity of this great empire, this commonwealth of nations of which we are trustees."

Carried Out Father's Wish

Kingsford-Smith Scatters Ashes Of His Father Over Waters Of Pacific

Sydney, N.S.W.—Wing Commander Charles Kingsford-Smith, using the aeroplane in which he made his last memorable flight from England to Australia, scattered the ashes of his father over the waters of the Pacific Ocean, which had witnessed his first notable triumph in the air.

On his death bed, William Kingsford-Smith, father of the aviator, expressed a wish that his ashes be cast to the winds over the Pacific, and his famous son thus performed his last sad duty to his dead sire. The elder Kingsford-Smith died November 2.

Will Investigate Deportations

All Future Cases Will Be Carefully Considered On Merits

Blind River, Ont.—Further deportations to their native lands of patients confined to mental institutions in the province will not be authorized until every case has been carefully considered on its merits and passed upon following a thorough examination by a competent physician.

This policy will be followed by the Ontario Government in dealing with such cases in future, according to Hon. J. M. Robb, provincial minister or health, in discussing the cases of three women recently to come under the deportation order.

Will Command New Liner

Montreal, Que.—Captain R. G. Latia has been selected to command the new \$2,000,000 Canadian Pacific liner "Empress of Britain," it was announced here.

NATIONAL FARM POLICY MAY NOW BE FORMULATED

Ottawa, Ont.—New departures in Canadian methods of agriculture are expected to develop from a conference to be held here November 17 and 18 between Hon. Robert Weir, Minister of Agriculture, and Ministers of Agriculture of the various provinces. The conference has been called in the hope of formulating a national agricultural policy.

Not only will the views of the provincial ministers be presented at this conference, but suggestions from the various agricultural colleges will also be put forward. Major Weir has already been in communication with deans of colleges throughout Canada, inviting them to express their opinions.

The discouragement suffered by farmers in attempting to market their crops at reasonable prices has convinced the minister in his determination to evolve an effective national agricultural policy, according to department officials. While the most crucial phases of the problem are present in the western provinces, the conference will not concentrate on the wheat situation alone, it is understood, but will endeavor to bring forth a policy of benefit to the country as a whole.

Major Weir has not made an expression of his own views, but is believed to favor a gradual increase in cattle-raising in the western provinces.

Helium Gas For Airships

Dr. Hugo Eckener Will Use Helium Gas and Crude Oil Motors In New Zeppelin

Berlin, Germany.—Dr. Hugo Eckener surprised the annual dinner of the American Chamber of Commerce here by announcing that as a result of the recent disaster to the British dirigible R-101 he had changed the plans for Zeppelins new under construction so as to provide for helium gas and crude oil motors.

He said he had received word from the United States that helium gas, which is non-inflammable and non-explosive, would be available to inflate his airships in whatever quantities desired.

Dr. Eckener, who is world famous as commander of the Graf Zeppelin, declared that had it not been for an explosion of the R-101 in France several weeks ago would have resulted in minimum damages. As it was the great airship burned to almost nothing and 48 British lives were lost.

Wheat Shows High Protein

Calgary, Alberta.—The earlier threshed grain from the southern part of Alberta showed remarkably high protein, according to tests made from many points, it is reported by the Alberta Wheat Pool. Samples for Hocking and Idlewild, showed a protein content of 19 per cent., while many other points supplied samples of wheat which tested from 15 to 18 protein content.

Planning Two Great Planes

Berlin, Germany.—The aeroplane that startled and surprised the world, the Dornier DO-X, is to have two sister ships if information received through aviation circles proves correct. It is reported that the Dornier Company is at work building two new planes the size of the DO-X and that they are expected to be completed in May, 1931.

Aviator Receives Decoration

Copenhagen, Denmark.—Captain Wolfgang Von Gronau, the German trans-Atlantic flyer, received from King Christian a decoration in recognition of his crossing the Atlantic to New York by way of Greenland. The flyer also said the route will be the made highway of trans-Atlantic traffic in the future.

Manitoba Birds For Eastern Show

Brandon, Man.—A poultry exhibit of considerable size will be sent to the Toronto Royal Show this month by the province of Manitoba. John Windover of this city stated that more than 50 birds would be shipped east and that turkeys will comprise a large portion of the exhibit.

Going East—Every morning at 6.23.

Going West—Every midnight at 24.13.

Stony Plain and District

Mr Ed Sommerfield is on a motor trip to Mayerthorpe at present.

Mrs A E Michael is visiting, this week, with Mrs Adolf Behrens, at Evansburg.

In Edmonton, Tuesday, Nov. 11th, to the wife of Mr. R. B. Brooks, a son.

Mr and Mrs Pailer made a motor trip on Sunday to the Cooking, Lake district, on a visit to their daughter, Mrs Magwitchke, and Mr Magwitchke.

Mr Roy Alton, Edson, was a visitor in Stony on Sunday, on his way to Edmonton and Barrhead.

Mr Zerber of Viking, was a visitor in Stony on the holiday.

Mr Reuben Larson has opened a confectionery and ice cream parlor at 11524 94 St. Edmonton, and will be pleased to see his old friends at the new stand.

Mr R B Brooks, The Sun Life Man of Edmonton, was a caller, yesterday, at The Sun office.

Mr L M Larson, of The Royal Cafe, motored a party of friends to the City yesterday afternoon, to see Capt. Plunkett and his company, in "The Dumbbells."

The four-man hunting party headed by Mr Chris Tizler, which left here with a sedan, trailer, truck and cayuse, returned Friday night with 4 moose and 3 deer.

The case of McNalla versus Littlechurze, for damage to a car, down for a hearing in the District Court, Edmonton, on Thursday last, was again given a week's adjournment. We understand there is the possibility of the case being settled out of court in a manner satisfactory to the plaintiff. George J Bryan for the plaintiff.

Dr Thurston, who has been operating as a dentist at Stony Plain every Friday afternoon, has given over his practice here to Dr Brown, of 95th St. and 118 av. Edmonton. Dr Brown will continue the trips to Stony on Friday afternoon.

Order your personal Christmas Greeting Cards now, at the Stony Plain Pharmacy. A choice assortment to pick from.

Berth's Orchestra played at Onaway on the holiday, and are billed for several more engagements there.

The grain prices printed on page eight are Tuesday's closing prices on the Edmonton grain exchange, as printed in the Journal.

Stony Plain U. F. A. Local is holding a meeting tonight in the Royal Parlors.

Presentation to Mr. and Mrs. Carmichael.

At the home of Mr and Mrs J F Clarke, on Railroad ave., last Friday evening, a special reception was given by the members of the Ladies Aid of the local United church, in honor of Mr and Mrs N M Carmichael, who had celebrated the twenty fifth (or silver) anniversary of their wedding. The president of the Ladies Aid, in a few appropriate remarks, presented, on behalf of the Aid, a beautiful set of silver spoons to the worthy couple, Mr and Mrs Carmichael.

Spruce Grove News

The sale of lands for taxes held in Edmonton yesterday by Spruce Grove Municipality did not attract the bunch of keen buyers usually noticed at these auction sales. The quarters of land offered did bring fair prices, but the bidding on lots in the subdivisions was not very spirited.

Mr Ph P Miller's hunting party arrived back from the West last week, with their complement of big game.

Mr Conner, a local popular sport, was receiving congratulations on Friday last, that being his birthday.

The Beuerlein Brothers threshing outfit last evening finished their 60 day threshing run.

A pleasing feature of the sale of lands at the local United church on Sunday morning last was a visit from the choir of Stony Plain church.

Mr and Mrs Fred Goebel and quite a number of other couples from this district attended the Old Timers' opening dance of the season in the Memorial hall last Friday evening.

Mr T Wudel entertained a number of his friends, at his home on Monday evening, to a banquet of geese. Among those present were Mr Gus Gitzel and Mr Geo Schadeck of Wembley, and Mr Louie Ulmer of Stony Plain.

Mr Carl Strass, an Edmonton builder, came thru here on Friday from Peers, laden with a moose having an almost perfect nine prong head.

Your correspondent noted to the City on the holiday and "took in" a picture show.

PAUL WERNER.

Road Accident Near Grov.

When the drivers misinterpreted each others' signals, two cars—a Chevy and a Ford—had a come together party opposite the Peace Lutheran church on Thursday evening, with the result that the west-bound car was bucked off the grade. Although both vehicles received considerable damage, the drivers and passengers escaped with slight bruises. One car was taken over to Dave Bell's as a hospital, while the other was dragged away on its hind wheels to another garage.

Both drivers live in the city, the one driving the east-bound car was returning from a hunting trip in the West. Each agreed to pay his own repair bill.

Here and There

(627)

His Honor R. Randolph Bruce, Lieutenant-Governor of British Columbia, his wife and children, Miss Margaret Bruce MacKenzie, and Lady Rosalind Northcote, guest at the Vancouver social season when Triple Entente Chapter Imperial Order of Daughters of the Empire held their annual banquet at the Canadian Pacific Hotel, Empress of Japan, recently, on her second visit to her home port. The guests and largest liner on the Pacific coast was in gala attire for the event.

Sweeping changes in operating methods affecting handling of Canadian Pacific trains throughout the west can be expected in the next few months. W. M. Neal, general manager of the company's western lines, announced recently. Locomotives will pull trains over several divisions instead of over a single division, permitting the railway to make use of its newer and more powerful engines capable of hauling a train more than 1200 miles instead of about 125 miles under the present divisional system.

Outmatching all other entrants to the British Columbia Boys and Girls Swine Club second annual judging contest held near New Westminster recently, Ernest Naughton and Wilbert De Louw, 14-year-old livestock experts of Kamloops, annexed the Canadian Pacific Railway cup and medals, as well as a free trip over the company's lines to Toronto to attend the Royal Winter Fair where the final judging contests of the Dominion Boys and Girls Swine Clubs will be held.

Interviewed as to a press dispatch that the Consolidated Mining and Smelting Company had large stores of unsold metals and was reducing wages, J. J. Warren, president of the company, said that at the end of September a little more than half a month's production of lead was on hand unsold and a little more than two months' production of zinc, while October sales had been heavy. He added that while the metal bonus paid employees varied with metal prices from month to month, the base wage scale had not been cut.

An indication of the value of Canadian agriculture is given in a recent official estimate of the agricultural wealth of the Dominion. Total value is placed at \$7,978,233,000 of which \$2,316,661,000 is for lands.

Patrols carried out by the Royal Canadian Mounted Police by dog-team and boat in the eastern and western Canadian Arctic during 1928 totalled approximately 25,000 miles—sufficient to circle the globe at the equator.

A total of 461 pupils have been enrolled and 1,200 application forms have been sent out in response to requests in connection with a correspondence course by which the Saskatchewan Department of Education has made high school instruction available to all students in the province unable to take advantage of the ordinary facilities.

Great Bear Lake, in the Mackenzie district of the North-West Territories, Canada, is the largest lake wholly within the Dominion. Its area is approximately 12,000 square miles.

ENOS "FRUIT SALT"

Doctors Warn Against Drastic Purgatives

Physicians know the danger of using cheap cathartics that create a harsh, unnatural intestinal activity. They know that ENOS "Fruit Salt" is more than a laxative. It is a delicious health beverage that sweetens and tones up the entire system—and that its daily use—just a dash in a glass of water, every morning—is an aid to vigorous good health.

CHAPTER IV.—Continued.

"I believe," he said, turning with mock severity to Gay, "that you've been telling on me."

Simone Bartlett chuckled as he replied: "She ain't told nuthin' I didn't know beforehand, boy. You've got a sort of conquerin' way about you. If you hadn't do you believe this little gal would 'a' picked up her duds and started off at a minute's notice?"

"It was thirty minutes," Nick corrected, "and she didn't keep me waiting either! Well, we must be off. A thousand thanks, Mr. Bartlett, for this happy week."

"Good luck!" called Simone, Bartlett as they strode away.

And good luck had followed them. Through the whole summer, rain came during the night. With few exceptions their days were bright and sparkling. They struck off through picturesque New Hampshire, sleeping at farms when the chance came; often spending their nights beneath the stars; and once accepting the hospitality of a Gypsy camp.

September found them in Maine, revelling in those first beautiful days that only at night give a hint of the colder days to come. They had climbed what their hostess of the night before had called "a mountain," which, though hardly deserving the name, showed them a wonderful, wide stretch of creaming waves.

"I'd almost forgotten that I loved the sea," said Nick. "Why let's set sail for a warmer climate! There's money enough yet to take us South—or shall it be the big southwest we've dreamed about: Colorado, Arizona, New Mexico—deserts and mountains—canyons and waterfalls—California and the Pacific? Oh, my dear! Isn't it glorious to be free?"

Free? It was then that fear clutched at the girl's heart. She was seated upon the ground, but Nick stood, his back to the wide expanse of blue, his hair blown away from his forehead, an open shirt revealing his strong young throat. As she looked up at him Gay thought that Simone Bartlett had been right—Nick had a conquering air about him. To think of shutting him up in that stuffy corner of the bank again seemed as cruel as clipping the wings of an eagle. Yet, she thought, with a quickening of her heart, even an eagle has its nest.

"Nick," she said, as he dropped beside her, "do—do you ever have the least, tiny desire to settle down?"

He smiled, and quoted:

"Who has not felt how sadly sweet
The dream of home, the dream of home."

"My dear girl, of course I think of settling down, as you prosaically put it; but not yet. We set out for the ends of the earth, if I remember rightly, and we've reached only the edge of the Atlantic! Settle down! Gay, are you crazy, or—why, what's the matter?"

She looked up, bravely fighting back the tears, and said: "Nothing, Nick. I—Then so softly he had to bend to hear: 'Nick dear—I can't go on.'"

"Can't you not? Have I tired you out, or—Oh, Gay?"

He knew, then. The knowledge came with a blinding sense of chaos. Wonder and dismay went hand in hand. New-stirring fatherly pride fought savagely with a sense of dull defeat. Then love triumphed over self, and he thought only of Gay—fear for her—terror for what she was to go through.

Was she glad, or—His clasped hands tightened, and he pulled himself together to hear her say:

"You mustn't feel too bad about it, dear old boy. I—I've thought out everything. I'm going back, but you are to go on. No! don't speak. I can't go back to Bakeraville alone, Nick. That would be too hard. But I can stay with Mr. Bartlett. He'd like to have me—somehow I know I could give him pleasure. It—it won't be till spring, Nick, and perhaps by then you—Oh, my dear," she broke off suddenly, "I should be so happy if I felt that you were happy! But you won't be satisfied unless you're free, Nick, and—"

"Free!" Nick tossed the word aside as impulsively as he had tossed his stick and bundle on that bright May morning. "Free! and you back there with that old man!" He put his arms about her. "What sort of freedom would it be, Gay, darling? What do you take me for? Do you think I haven't any natural instincts—that I can't be happy over this as well as you? What a goose you are! Have you been losing sleep because you were afraid to tell me that our wanderings are at an end?"

He kissed her with a tenderness that brought her tears, even as she protested: "But it mustn't be the end for you, dear. There's no reason—"

"There's the best of reasons," he insisted. "I tell you what, Gay (he was, to all appearances, enthusiastic), 'we'll go back by train and hire The Bird's Nest' of Mr. Bartlett. We'll stay there through October; then, if nothing more interesting turns up, there's the bank, you know, with a raise waiting for me whenever I want to claim it. John Maxwell told me so before I came away. As for 'the ends of the earth,' dear—why worry about something that'll keep? We'll have it to look forward to, you know."

Through her tears Gay threw him a look of gratitude; but further arguments proved futile.

"No, I shan't leave you," Nick decreed soberly. "I should feel like a slacker. Dear, don't worry about my disappointment. Remember, these glorious weeks we've had, and which we'll always have to remember and look back upon. We can't escape responsibilities forever."

"But," she hesitated, "I-I hate to be the one to bring them to you, Nick."

He smiled, and taking her handkerchief, dried her tears as if she were a child.

"You're not to cry another tear. As for those responsibilities, dear girl, I brought them on myself. I made you come with me. I didn't give you time to consider these possible complications. I didn't consider 'em myself. But do you imagine that I'd have things different now? Look back on the days we've had together and answer that!"

"Oh, Nick," she said, while comfort swept through her heart in a healing food, "if I could know that you'd always feel so! But you've only begun to stretch your wings, and before you know how long it will be before you can roam again! Nick promise me something—promise you'll tell me if the time comes when you feel you must have more freedom. I—I couldn't bear to think that you were tugging at your leash."

"I promise," Nick answered soberly, meeting her mood; then added with all the confidence of youth: "But the time won't come."

Two days later an amazed and beaming Simone Bartlett, armed with a big rocker on his front porch, and greeted them with all the cordiality of a long-lost uncle.

"Jiminy Crickets! I was just wondering about you. Aint had a card since you left Portland. Thought maybe you'd took the train for some fur-off port, or set sail for the Fiji Islands. And here you're, turnin' in my own front gate! Set down, ma'am. You're a sight for sore eyes, both of you; but what in thunder brings you back ahead of time?"

Gay flushed; but Nick answered readily: "Only the time-worn and unquenchable desire for 'Home Sweet Home.' In other words, we want to hire your camp, and when cold weather drives us out we'll go back to Bakeraville, and the statey portals of the First National Bank. May we have the cabin, Mr. Bartlett?"

"It ain't for rent—not at no price whatever; but you're welcome to use it long as you see fit. But first you got to visit with me a spell, and tell me all about your travels. I ain't had a 'things in' happen since you left. Many's the evenin', ma'am, that I've set here thinkin' o' that chowder, and the good time you give me, to say nothin' of all them postcards you sent back, so letters, too. I saved 'em all. They're in the lacquer box my great-uncle Ebenezer Bartlett brought from Japan. Don't hardly see how you got a chance to write 'em, ma'am."

"We usually manage to do the things we want to do," Gay answered, "and I wanted you to know what a wonderful time we were having."

"Don't regret your hasty bargain, then," chuckled the old man.

"Not yet," said Gay, with a sweet, upward glance at Nick that was not lost upon their host.

"And Nick?" queried Simone, his eyes twinkling. "Sorry you ain't vadin' in the Pacific, boy—or be you satisfied to come back to old New England?"

"I've never set foot out of New England yet," laughed Nick, "and some day I shan't made in the Pacific. As for being satisfied—you ask Gay if she's heard any complaints on my part."

(To Be Continued.)

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Exterminator.

Increase Elevator Capacity

The Alberta Wheat Pool has increased its storage capacity at the Pacific coast by a million bushels through the leasing of the terminal elevator at Victoria, owned by the Panama Pacific Grain Co., Ltd. The Alberta Pool now has on the Pacific coast storage capacity for over 9,000,000 bushels of grain.

Minard's Liniment refreshes the scalp.

Free Freight Policy

Westerners Can Ship Breeding Stock Free Of Freight Charges Under Certain Conditions

Major the Honorable Robert Weir, Federal Minister of Agriculture, has announced a new free freight policy whereby heifers suitable for breeding stock bought by bona fide farmers and cattlemen at stockyards west of Fort William will be returned to the buyer's farm or ranch freight free. Application should be made to the nearest stockyard for the benefits of the policy. The concession extends to carloads of not less than twenty heifers to be used for breeding purposes only, to be, so far as possible, of the same type and breed and to be not more than twenty-four months old. Free freight is obtained on the certificate of the authorized stockyards representative of the Dominion Live Stock Branch at point of purchase. It entitles the shipper to have his car of breeding stock billed to his home station free of freight charges. The railway company assumes 25 per cent of the freight and the Dominion Live Stock Branch the balance.

Woman's Fortitude

Forces Herself To Smile Through Pain

"I never seem to find time to rest," says many an overworked housewife. Under smiles and forced cheerfulness she conceals weariness and nervous depression; headaches and backaches. Often she is in real pain, but still refuses to give up. This very fortitude is apt to be her undoing. If she continues to neglect the signals of distress she will sooner or later suffer a serious breakdown.

A noted doctor has stated that nine-tenths of the ills of womanhood are due to poor blood. That anaemia is the cause of the low spirits, the poor appetite and palpitation that make life a burden for so many. There is no need, however, for women to suffer in this way. All the ailments of anaemia can be banished by taking Dr. Williams' Pink Pills. These Pills create an abundance of new, rich, red blood and this new blood will bring strength and vitality to nervous, overworked women. The Pills are for sale at all medicine dealers or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Montreal Largest Inland Port

It is expected that the improved ship channel in the River St. Lawrence as far as Montreal, giving a 35-foot depth for ocean liners, will be completed by 1934. This will enable liners of 20,000 tons gross to sail to Montreal, 1,000 miles from the Atlantic, the largest inland port in the world.

FLAVOR

Full of long lasting delicious flavor and made of pure chiclet and other ingredients of the highest quality

comes to you in perfect condition. All of its goodness is sealed tight in the clean wax wrapped packages. The day work goes much easier with WRIGLEY'S to sustain and refresh.

Little Helps For This Week

"O turn unto me, and have mercy upon me; give Thy strength unto Thy servant."—Psalm lxxviii. 16.

I come to Thee, O Lord, for strength and patience

To do Thy Will:
Help me, O Father, in this world of duty

My place to fill.
It is so difficult to bear with patience and allowance the faults of others. It is very mistaken to think that the great occasions of life only demand religious feelings and principles; it is in the everyday petty annoyances, the constant call upon our charity, forbearance, and meekness, that we feel the constant want of some stronger and more powerful stimulant than the feeling of the moment to smooth down the rube of life, and make our existence one of peace and happiness.—Maria Fane.

Candians Greatest Radio Users

According to the president of the Radio Manufacturers' Association of Canada the per capita expenditure in the Dominion on radio sets is the highest in the world. In 1929 Canadians spent over \$50,000,000 on radios and equipment.

Carvel Clippings

Mr Mat Steeyk is making an effort to have an old road allowance which had been closed up, re-opened. A petition to this effect is in circulation among his neighbors. Mat made a motor trip to Edmonton on Friday, to interview the Minister of Public Works.

In an Edmonton court, on Thursday last, Nick Pawluk was fined \$20 and costs for being in possession of brass knuckles (home made). Nick said these had been slipped into his pocket by a friend unbeknownst to him, when they met.

United Church Notes.

Our Thanksgiving Day services on Sunday last were a great success. At 11 a.m. the choir went to Spruce Grove, where they sang a beautiful anthem, Mrs Feats singing as a solo "In Flanders Fields."

At Stony Plain service there were two splendid anthems in addition to a tender solo by Mr L. Outway, which was appreciated. Rev Sauder spoke from Lk. 17-18 "But where are the nine." Mr Walton St. led in prayer. On Nov. 29 the annual bazaar and turkey dinner will be held in town hall.

Sporting Notes

The antry weather Friday evening last was the cause of the postponement of the boxing to have been staged by the Glee Club. A lot of the right material for a good evening's sport was present, including Towel-holder Bill and Heavy Champion Jim. The latter has sent his medals and other trophies back to the safe-deposit storage.

Now that the curlers have got ageing, rumors prevail that the reorganization of the hockey club will soon be under way, and we may hear of a meeting being called at any time. A number of the young-skaters are anxious to see the local rink flooded.

Girls' Sewing Club Party.

A party under the auspices of the Girls' Sewing Club was held on Friday evening at the home of Miss Mary Goetz, which was well attended by the local young people. Music, charades and games helped to pass a very pleasant evening.

Among those present were: The Misses Mary, Elsie and Viola Goetz, Emma and Bertha Wudel, Laura Gitzel, Tillie and Mary Enders, Esther Wolf, Louisa Oppertshauser, Anna Miller, Ida Fuhr and Mrs Moyer.

Measrs Otto and Lewis Wudel, Ph Enders, W Rosnau, L Ulmer, W Miller, Conrad Fuhr, D Moyer, Elmer Anderson.

Duffield Doings.

The ladies of the Duffield R. C. Church held a very successful whist drive and bingo party on Friday evening last. The affair was held in the schoolhouse and was attended by practically everyone in the district. Mrs J Collinridge won first prize for ladies, in the bingo; and Mr Andy McCaig the first prize for the gents. The ladies who had the affair in hand deserve great credit for the success which attended their efforts.

Muir Lake Community.

This has been a busy week at the Community hall here, with a turkey supper Thanksgiving day, and a dance last evening, at which Martin's orchestra played.

Another dance is billed here for Friday of next week, Nov. 21st: this one to be given under the auspices of the Community.

The local Nimrods are having good luck with the big game since the season opened, and venison and dark meat is on practically every table hereabout every day.

There was a good attendance at the service held last Sunday evening in the hall. These meetings are becoming popular, and it is probable will be held regularly during the winter.

A. P. G. Co. Has Poor Year.

A loss of more than two and three quarter million dollars for the year ending June 30, 1930, is shown in the fourth annual report of the directors of the Alberta Pacific Grain Co., made public in Winnipeg on Friday, according to a despatch in the Edmonton Journal of Friday's date.

Blue & White License Plates

Alberta's 1931 auto license plates will blossom forth in natty white figures on a cobalt blue background, according to information given by the provincial Motor Ass'n by the department of the Provincial Secretary.

Unemployment Relief Work.

In answer to an inquiry from a ratepayer in the Inga municipality, a letter has been received from Hon O L McPherson, minister of public works, which says, in part:

With reference to unemployment relief work for the coming winter, I may say that within the municipalities all such plans come under the municipal authority. Provision has been made by the Dominion Government under certain regulations and restrictions whereby assistance will be given to municipalities for such work. The province must in all such cases also undertake further assistance. All municipalities have been notified of the scheme which is in effect, and have been given a chance to institute such work and receive 75 p.c. contribution from the Dominion and Provincial governments where the need for relief exists. Many municipalities have availed themselves of this opportunity, and others are planning further work, such as clearing in winter months. Any such plan must be initiated by the municipality itself.

THE SERVICE GARAGE.

We have an important announcement to make to our many Friends and Patrons, which we believe will prove interesting and at the same time, beneficial to all. On and after November 1st, 1930, we are going on a strictly Cash Basis. All Parts, Accessories, Gas, Oil and Grease and Labor will be sold for Cash only. We feel that by doing business on this basis we will be enabled to buy our requirements cheaper, thereby passing on the benefits to our Customers.

We are convinced that a distinct saving will be provided for you, and feel sure that this partnership between us will prove advantageous to all.

This plan does not include the purchase of New or Used Cars. We have a very liberal offer to make on Cars whereby they can be purchased on a deferred payment plan.

Call in and let us tell you about it.

Good Hunting in Laurentians

This fine bull moose with 56 1/2-inch spread of antlers was shot in Mount Tremblant Park, Laurentians, about 50 miles east of Mont Laurier, at the end of Canadian Pacific steel, by R. H. Vickers and A. C. Her, Montreal hunters, recently. It came to the call of Gaston Prevost, well-known northern guide who is also fire ranger of the district. When shot, the animal fell into the Cypress River, its 1400-pounds of weight sinking it into the mud. The hunters were forced to improvise a raft of cut logs on which they towed the body to camp. Photographs show close-up of the moose and of the body being towed to camp, the heavily loaded canoe and a snap shot of a passage through shallows. The guide stated that in all his experience he had never seen moose so plentiful in the district.
